BAILEY COMES BACK WINNER

Former Senator Joe Bailey. (EXCLUSIVE DISPATCH.)

AN ANTONIO, July 25.—Former Senator Bailey is the man in Texas politics today. The open-shop question is the most important issue as the result of the victory of Senator Bailey Saturday night. Carrying the banner of open shop, he defeated three strong political factions, of which one was the labor-union closed shop, and two of which leaned toward the closed shop idea. Senator Bailey Saturday led the vote in the election.

Better showing in the cities than had been expected, though, with the exception of San Antonio and Galveston, he has probably lost all the larger cities.

RUN-OFF TO BE BITTER. Political observers predict that the run-off between Bailey and Neff will be the bitterest in the history of the State. This takes place the fourth Saturday in August.

The farmers, merchants, manufacturers and unorganized workers are expected to back Bailey. Union labor will largely oppose him, as will the leaders of the Baptist church and the radical prohibitionists.

The result is hard to forecast. However, there has been a strong trend toward Bailey in the last three weeks. It is considered probable that most of the vote cast for Looney and Thompson will go to him, and that he will be nominated, which is equivalent to an election by a majority of around 100,000 votes.

UNION LABOR IS BEATEN IN BAILEY'S COME-BACK.

CANTU ASKS FOR A DELAY OF ELECTION

Governor of Lower California Fears Disastrous Results at Present.

(BY A. P. MERRY WIRE.)

CALEXICO, July 25.—In a strong plea for the postponement of the coming general election in Mexico and the altering of election laws to avoid a threatened "new outrageous imposition," Estaban Cantu, Governor of the northern district of Lower California, telegraphed Provisional President De la Huerta today.

Cantu begged De la Huerta to postpone for three months, the election set for August 28.

"I esteem it, to a patriotic act," the message says, "to raise my humble voice in friendly warning and discreet advice and entreat your excellency to use in time your tactful influence and prevent the consummation of a new outrageous imposition in the next election, for that would bring complete national disaster."

Insisting upon the adoption of rules that would make election provisions uniform throughout the country and prevent the vilification and abuse of rival candidates, the Governor continues his message:

"I am sure that the President has been deceived by the promises of the candidates, and that the election will be a complete disaster to the country."

As a result of his stand, Cantu has been declared a candidate for the next election, and he has been an avowed opponent of the candidates of the present election.

As a result of his stand, Cantu has been declared a candidate for the next election, and he has been an avowed opponent of the candidates of the present election.

IRISH CRISIS NEARS HEAD.

Government is Willing to Grant Concessions to Get Peace With Sinn Fein.

(BY CABLE AND ASSOCIATED PRESS.)

CORK (Ireland) July 25.—Police Sergeant Mulhnen, chief of the intelligence department of West Cork, was shot dead today at the door of a church by two masked men. He had left the police barracks in civilian attire and arrived at the church just as mass commenced. He paused at the entrance, dipped his fingers in the font and was killed while actually making the sign of the cross.

BELFAST (Ireland) July 25.—There was no firing here last night or this morning and the worst disturbance was some window-smashing. The death list from the recent fighting between the Unionists and Sinn Fein factions reached seventeen, when two women and a man died.

Many reasons are given for last week's outbreak in Belfast which last night spread to Bangor and Lisburn, where great damage was done. The looting of two residences and a spirits shop in Ballymacarret, a suburb of Belfast, Saturday night, was done by a crowd of youths. A baton charge served to drive the looters home. The soldiers refrained from using their firearms.

There was a fight between the two factions in the Falls Road district, the only sufferers being police, two being wounded. Services were held in St. Matthews Chapel, one of the storm centers, this morning under unusual circumstances. The church was surrounded by barbed wire entanglements, soldiers forming guard for the worshippers.

At Bangor, saloons and pawn brokers were the chief sufferers. The police and military restored order without the use of firearms. At Ballynahinch there was also an outbreak Saturday night. Windows were smashed and attempts were made to burn houses. These outbreaks are considered serious, as they show that the trouble radiating out of Belfast may become general.

The military at Derry were called upon to separate the rival factions Saturday night which came into conflict at Bishop's Gate. Soldiers were attacked and revolver shots were fired, one man being wounded, but training of machine guns on the streets brought the situation back to normal.

DUBLIN, July 25.—Arthur Griffith, Sinn Fein leader, night denied reports that authoritative attempts have been made to negotiate with Sinn Feiners, for a settlement.

At Newport, Tipperary, last night, a gang of men shaved the hair from a girl because she was keeping company with a policeman. Exasperated soldiers and police burned the house of all the principal Sinn Feiners, causing them to fly for their lives.

Two coast guard stations in the Beahaven district were raided today. In the one at Ballygarven, Chief Officer Snawlin and Petty Officer Brown were killed.

WASHINGTON, July 25.—Eamonn de Valera, "president of the Irish republic," speaking tonight at a reception in honor of Archbishop Mannix of Melbourne, declared that the Irish people "have been ready always and are ready now to sign a permanent peace between the two nations."

NEW ORLEANS CAR STRIKE IS BEATEN.

AUSTRALIA REPUDIATES ARCHBISHOP.

PREPARE FOR WHEAT CROP.

CHICAGO, July 25.—The efforts being made by the Federal Reserve Bank to strengthen their position in view of the imminent demand for credit for crop moving is indicated in their weekly financial statements. This purpose is seen chiefly in the fact that the bank last week bought a smaller amount of commercial bills. This, coupled with an almost stationary loan account with the member banks, resulted in a fair decrease in total bills on hand.

Considerable decreases in gold reserves and deposits were interesting features in the weekly report, causing a slightly less favorable reserve position. The Chicago Federal Reserve Bank showed a considerably improved showing. For the first time since March—with the exception of one week in June—the bank is out of debt to other Federal Reserve Banks. In their weekly financial statements, the bank reported a deficit of \$2,275,520 being shown. This marked a decline of \$31,512,450 from the preceding week, when there was an excess of \$29,236,130. This decline in reserves was attributable to the fact that the member banks raised their reserves at the Federal Reserve Bank by \$40,665,000.

Thousands of Vacant Flats in Chicago
CHICAGO, July 25.—Two months ago Chicago people were rushing around in circles vainly trying to find a flat or house in which to live. Now the situation is reversed. There are thousands of vacant flats and houses in the city, and the people are having a hard time finding a place to live.

On The Road to Ruin

It is a sad story of neglect. Time and weather have been actually allowed to impair property that a few gallons of W. P. Fuller & Co.'s Paint would have preserved and beautified. One of the best reasons for painting right now is that the present high cost of material has increased the value of your property holdings and it is wise to protect the investment. Remember that there is a Fuller Paint for every paintable surface.

WEATHER DID IT

FULLER'S Paint would have saved it. Weather beaten surfaces are forerunners of ruin. "Save the Surface and You Save All." In every section there are many dilapidated and unpainted houses that tell a sad story of neglect. Time and weather have been actually allowed to impair property that a few gallons of W. P. Fuller & Co.'s Paint would have preserved and beautified. One of the best reasons for painting right now is that the present high cost of material has increased the value of your property holdings and it is wise to protect the investment. NEW HOSPITAL FOR NEAR EAST.

Americans Plan Hundred-Bed Institution in Turkey.

Need of Place for English-Speaking Persons Urgent.

School for Nurses in Connection Also to Open.

BY CABLE AND ASSOCIATED PRESS.
CONSTANTINOPLE, July 25.—Americans in Constantinople have established a hospital which is designed eventually to be the nucleus of an important American medical center in the Near East. The hospital, which will have 100 beds, will be supplied by the American Red Cross. The personnel will be supplied by the American Red Cross and the American Committee for Relief in the Near East, both of which have many doctors and nurses working in Turkey among war refugees of various nationalities.

Dr. A. R. Hoover, who has lived for many years in Turkey, will be director of the hospital, and Dr. E. L. Richards, formerly physician to Vassar College and a member of the Wellpost unit of the American Committee for Relief in the Near East, will be his assistant.

Mrs. Anna E. Rothrock of Glenside, Pa., will be superintendent of nurses, and her assistants will be Miss A. Estelle Sutton, Detroit; Miss Roberta K. Sharpe, New York; and Miss Mary E. Cochran, Acton, Mass.

Constantinople College for Women will open a school for nurses in connection with the hospital and within a year will open a woman's medical college to afford medical training for women of the Balkan States. Admission to the school will be open to women of all nationalities and religions.

PLAN GENERAL MOVE.
The Rockefeller Foundation has promised to send a board of inspection to Constantinople and the hospital board hopes to get the assistance of the foundation in the general improvement of health and medical conditions in the Near East.

Under the direction of the Constantinople unit of the American Committee for Relief in the Near East, an open-air hospital for tubercular children has also been established on the shore of the Bosphorus, a few miles north of Constantinople. This hospital is under the direction of Dr. E. L. Richards.

It has fifty beds and is designed as a model institution which the Americans will use to get the Turkish, Greek, Armenian and Jewish communities to duplicate.

PORTLAND IN GRASP OF "GAS" SHORTAGE.
PLEASURE-CARS CUT OFF ENTIRELY FROM SUPPLIES BY THE UNION.

PORTLAND, July 25.—The gasoline shortage in Portland grew more acute yesterday than it has been at any time yet. The Union Oil Company stopped entirely the sale to pleasure cars, and the city agency announced that this policy probably would be followed while the shortage lasts, the company selling for commercial purposes only.

Other oil companies were entirely out of gasoline most of yesterday and said they would have only a small supply today, with the probability that Sunday motorists will not be served. The ration is now 2 per cent of tank capacity, with the exception of one company, which sells 50 per cent as long as it lasts.

BERMUDA EXPLAINS "INSULT" TO FLAG.
AUTHORITIES ASK BRITISH EMBASSY TO PUNISH STATEMENT.

WASHINGTON, July 25.—At the request of the Bermuda authorities the British Embassy authorized the following statement yesterday relative to the recent alleged insult to the American flag at Hamilton, Bermuda:

"Recent accounts of the alleged insult to the American flag at Hamilton have been greatly exaggerated. No facts being as follows:

Two drunken sailors began to lower an American flag which was flying at a hotel in Hamilton, but when Col. Osterhout, of the United States Twenty-third Infantry, remonstrated with them they desisted and left the flag flying.

The World Today

BY WM. RHODES HERVEY.
Vice-President, Los Angeles Trust & Savings Bank

The time has been when the word "trust" connected with any business corporation raised a sinister doubt in the minds of those who did not differentiate a trust company from a corporation which was a member of a trust composed of other corporations or individuals for the purpose of restraining or monopolizing trade or otherwise promoting their mutual benefit. With the growth of trust companies and a wider experience with their fiduciary operations no one at all familiar with business conditions now confuses a trust company with a corporation which is a member of a trust. The business world has come to recognize the worth of and need for well organized and managed trust companies.

A trust company is a corporation organized under the State law and is a capitalized, responsible institution equipped and authorized to perform fiduciary services of every nature. The qualifications of a trust company to continuously, efficiently and impartially serve its customers and beneficiaries are rarely, if ever, found in any individual. The trust company is not subject to the vicissitudes of human life—it never gets sick, goes out of town, takes a vacation, becomes insane or dies. When appointed to perform a duty there need be no fear but that it will be ready to assume the task and will live to complete it.

Confidence is the foundation upon which trust business is reared. Nearly every person who owns property needs the assistance of an impartial friend upon whom he can rely and trust. Many of those who are solicitous for the welfare of their families desire to leave them and their affairs in the care of an individual of trusted friend who is not subject to the vicissitudes of human life. The trust company is the admirable answer to the need of all such persons. It is at work on every business day and performs its functions with integrity, ability and industry. Its officers are constantly available to assist, advise, encourage and protect the men, women and children who look to it as their good friend and, in most cases, as their best friend.

The Los Angeles Trust & Savings Bank has a large capital, is a fixture in the financial life of the community, and is well organized and equipped to promptly and properly perform all the duties entrusted to it by the living and the dead. It acts as executor of wills, administrator of estates, guardian of minors and incompetents, custodian of funds, trustee of express trusts, besides performing many other fiduciary acts on behalf of corporations and individuals. The trusts managed by law as legal investments for savings banks. The Safe Deposit Department rents safes and receives property on storage. The Bond Department buys and sells high-grade investments and securities, and the Trust Department executes trusts of all kinds. In this one bank every financial need or requirement of a customer can be fully taken care of. For the convenience of its customers branches have been established in different parts of the city, where the same courteous attention is given all customers as that which characterizes the main office at Sixth and Spring Streets.

A good banking home is a valuable asset. The business man regards his banking connection as indispensable to the proper management and protection of his affairs. It should be considered as a matter of no small consequence to be well and favorably known at a strong bank. The departments of the bank are so many and so active that they are able to meet the requirements of a customer in all matters affecting the financial interests.

Blizzard Makes Mountain Climb Hazardous Task.

PORTLAND, July 25.—A terrific blizzard and windstorm added great danger to a climb of Mt. Hood, made by P. C. Knapp, president of the Peninsula Shipbuilding Company and the Peninsula Lumber Company, together with three other Portland residents, last Wednesday. The party returned yesterday. In the intense cold attending the storm, Attorney John A. Lee had two of his fingers frostbitten. Mrs. Lee and Miss Charlotte Sablin were also in the party. The ascent and descent were made on the north side of the mountain. On the return trip the velocity of the wind was so great that the members of the party were forced to escape by hands and knees to escape being blown down the cliffs. When the storm was at its height the climbers remained in the shelter of the forest service lookout cabin for an hour. The snow tore over the summit in furious gusts that made vision for more than 100 feet impossible.

FLOUR MILL GOING NEAR ARCTIC CIRCLE.

DEVELOPMENT OF HARDY GRAIN RESULTS IN LONG TRIP FOR MACHINERY.

PORTLAND, July 25.—G. Lansing Hurd of Portland has just sold a flour mill to be installed 175 miles south of the Arctic circle in Alaska. This will be the first flour mill that has ever been sent so far north.

But the acreage of wheat is increasing so rapidly and the Department of Agriculture has been so successful in developing a hardy grain which matures in about ninety days, that the growers have felt the need of a mill.

The plant will be shipped to Seattle, then by steamer to St. Michael, where it will be transferred to boat and will move up the Yukon 125 miles to the mouth of the Tanana River, and thence 50 miles to Fairbanks. The mill has been ordered by the Tanana Valley Agricultural Association. The capacity of the mill is twenty-five barrels a day.

OIL COMPANY WILL PAY STOCK DIVIDEND.
COLUMBUS (O.) July 25.—Directors of the Pure Oil Company, formerly the Ohio Cities Gas Company, at a meeting here yesterday, voted to pay future dividends, half cash and half common stock at par.

An Unusual Opportunity To Obtain a Slightly Used

KURTZMANN-AEOLIAN

Player Piano for \$775

We have several of these fine instruments that have been used on our floors as demonstrators. They are regular \$975 and \$1000 models, but we are offering them for a quick sale at this low price. It is indeed an exceptional opportunity for you to save a considerable sum on a player piano of excellent quality—combining the wonderful quality of the Kurtzmann Piano with the famous Aeolian Player action. Easy monthly terms.

Our Entire Stock of Universal Player Rolls Reduced 25%

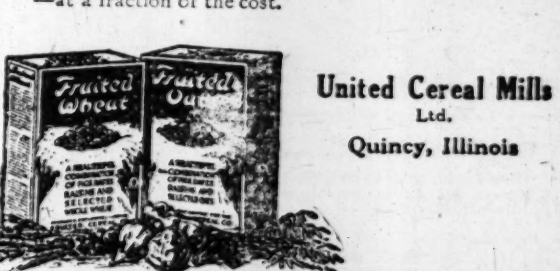

This Special Offer is for a few days only—

Yachts Ready for Fifth and Deciding Race Today; Tigers Take Lead When Bees Lose

LIPTON STILL CONFIDENT. Believes His Green Sloop Will Lift the America's Cup.

BY JACK LAWRENCE.
(EXCLUSIVE DISPATCH.)

NEW YORK, July 25.—North-west winds are forecast for the fifth and deciding race for the America's cup tomorrow between Sir Thomas Lipton's Shamrock IV and the New York Yacht Club's Resolute. There is a possibility of squalls during the afternoon that may lead to an added thrill to the crucial struggle, according to the weather sharp at Sandy Hook.

Tomorrow's race, which finds each yacht with two victories to her credit, is to be started at noon. The course which will be announced from the committee boat Barton calls for a fifteen-mile beat to windward and return, the start and finish being over the line stretching between the Barton and Ambrose Lightships.

The challenging Shamrock IV is the winner of the historic cup will pass out of the hands of the New York Yacht Club as become the property of the Royal Ulster Yacht Club of Belfast, for at least a year. The trophy was brought to this country in 1934 by the schooner America after her victory in a race around the Isle of Wight.

Resolute will go to the line tomorrow a heavy favorite in the betting as a result of her consistently superior showing in going to windward. In this phase of sailing the manager of Shamrock IV admits that the challenger is outdistanced by Resolute. Nevertheless, Sir Thomas Lipton still feels confident that Shamrock IV will lift the cup.

Both Shamrock and Resolute had brief sail stretching spins today when they returned to their anchorages. The crews reported them to be in every detail for the big battle this afternoon.

A new mainsail was bent on Resolute early in the morning. And shortly after dawn the cast of about twelve knots and the cast of her merrings and crushed out toward the open sea under mainmast and jib. The breeze was blowing at the northwest and the defender footed fast under it. She returned to the Homestead about noon and her crew went aboard the tender Montauk for lunch. There was no more sailing during the rest of the day.

SNAPPY MANEUVERS.
The report that Resolute was going to a Staten Island drydock to be overhauled was officially denied by her afterguard today. When Shamrock left her moorings at 3 o'clock the wind was from the east and was blowing at the rate of twenty knots when it returned to the club. Carrying a mainsail and jib, she headed over toward Princes Bay and went through a number of snappy maneuvers before having a course for home.

For the first time since the challenger has been anchored at Sandy Hook Sir Thomas Lipton and the Victoria failed to pay their usual daily call. It was rumored about the anchorage that the Irish baronet had not recovered from his displeasure over the postponement of Saturday.

HEAVY FAVORITE.

Trainer Moakley Likes Chances of Yank Track Men.

BY JACK MOAKLEY.
Trainer of American Olympic Track and Field Team.

(EXCLUSIVE DISPATCH.)

NEW YORK, July 25.—They say preparedness is the first step toward victory. Well, the American team which sails on the Princess Matoika from Hoboken Tuesday for Antwerp is prepared and physically fit to fight every inch of the way to uphold traditions established by the United States athletes in past Olympic games.

While officials, athletes and coaches are hopeful of success, it is going to be a hard fight.

Sweden will send a team to Antwerp coached by Ernie Harberg, well known to athletic followers in this country. Italy's sons will have the privilege of facing the powerful Hannes Kolehmainen at Stockholm. It will be recalled Kolehmainen was the winner of the 5000-meter run and the 10,000-meter run—

Nothing definite has been decided as to how many of our men will compete in the various races. The Travers Island was the host of the Chicago team. However, that Joie Ray of the Illinois will compete in three races—400 meters, 800 meters and 1600 meters team race.

With Ray in the 800-meter it will be a case of "defeating" Beril Rudd, wonderful South African runner. There is no doubt as to his being a great runner.

One thing that has been gratifying to me during the short training period is that the American improvement many of our athletes showed on both track and field. For example, the case of Charles Paddock of Los Angeles. The one fault with Paddock is his slowness in getting off his mark.

There is no question about the California sprinter having an abundance of speed. But his inability to get away quickly has been the reason for his losing more than one race.

In addition to starting poorly, Paddock has also the habit of throwing his head back, which, of course, retards his speed. The other fault is that he is a bit of a "fencer" after the start.

After being shown several times by Wefers how to get a quick start Paddock began to improve in this respect and now he is a great sprinter at the five-yard mark. With more coaching Paddock should overcome his one fault on the Olympic track.

Gaige begins. If he does he is likely to set a new mark for the 200-yard dash. Paddock, however, is only one of the great sprinters that will carry the shield of the United States to the Olympic Games.

Loren Murchison exhibited his greatness in the 100-yard dash at the Harvard stadium. Finishing in front of Scholz and Paddock. Then there is Maurice Kirksey of California. He is a great sprinter and not to forget Billy Hayes, Allen Woodring and Leo Messerslager. American should score heavily in the dashes.

In the hurdles we are going to encounter considerable trouble in trying to beat Earl Thomson, who will compete for Canada. We have seen Thomson run and we know he is a capable of doing it.

Walker Smith, James Watt, Harold Barron and William Young we have seen hurdle who should expect Thomson to his limit in the 110-meter event.

If Thomson starts the quarter-mile hurdles he will find plenty of opposition in Frank Loomis, A. C. C. and the other runners of California.

We also should capture a number of points in the 400-meter event. Frank Murphy, H. P. Muller and Richard Langdon have three of the best running high jumpers in the country. In the running broad the other nations will find it quite a task to beat Sol Butler, Sherman Anderson and Carl Johnson. Butler showed his ability as a running broad jumper by setting a new American mark at the Harvard stadium.

Pat McDonald also should win the 110-meter hurdle. He is a great hurdler and Matt McGrath are expected to finish one, two, three, in the hammer. Then we have McGrath, a fifty-six-pounder, who is a great hammer thrower. Our marks in the javelin, however, are not up to the standard of the other nations. We have F. K. Foss and E. Meyer, and other javelin throwers. I am pleased with the team and the outlook.

But in the afternoon, he was in much better form, making the course in 7 strokes under his morning score and finished with a rally that would give one the belief that his play might have much more to come. He is a golfer and he is going to be a golfer as he has had them and likes them to go.

His chief difficulty today was in his driving. In this he lost several strokes and on an occasion or two he failed to get even respectable length because he sliced into the ground. But his swing and the results he obtained in the majority of efforts justify the statement that whatever is wrong with his driving can be corrected by a few days practice. I do not know how much his improvement will be, but I am not absolutely certain that he has not had the amount of play that he should have, but my impression is that he will be keen enough in another month. With steady play, to cover the Apawamis course in par or under without being at all surprised. The driving of Douglas was commendable. He sliced infrequently and he was a steady, which would cause one to conclude that the difficulties that he had were on his part, or perhaps a slipping club.

At any rate, he ran down three putts in the last hole in the second match and his driving must have practically all the credit for the

one he made on the sixth hole, which is 823 yards long, and a fair share of the credit for the others, which were in the thirteenth and the sixteenth. Ted Ray was better in the first match than later. Throughout the day he was driving as I like to see him drive, but his putting game was far superior in the morning than it was in the afternoon. He missed some comparatively easy putts then, after he had made difficult approach shots appear easy.

I cannot deny that I was pleased with my game, particularly during the afternoon match, in which I was putting more accurately than I have done over any other of your reports. I am not sure, however, as good as my 69 of today, but I have on other occasions played a more conservative game. Today I attempted to run down several of ten to twenty feet and I had the satisfaction of seeing some of them successful. My thumb is improving steadily.

We are to meet Walter Hagen and Jim Barnes tomorrow over the New Schenck Country Club course at New London, Ct.

MAJOR LEAGUE RESULTS.

NATIONAL LEAGUE.

MITCHELL LOSES FIRST.

BROOKLYN, July 25.—Pittsburgh knocked Mitchell of Brooklyn out of the box today, the southpaw pitcher losing his first game of the season. The score:

Caton, 1b	4	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1

MATINEE IDOL IS SHOT TO DEATH.

HERO OF WILD WEST SHOW IS MURDERED BY WIFE AT WINFIELD, KAN.
 Winfield, Kan., July 25.—A man known as a wild west show, who killed two men on the streets of Tahlequah, Okla., a year and a half ago to avenge his wife's honor, himself was shot and killed on a lonely country road near here late this afternoon by Mrs. Wilson.

With the death of Wilson perished the fourth man intimately connected with the pretty, dark-haired woman, who now sits quietly in the County Jail here. **Wilson's Death.**
 Charles West, first husband of Mrs. Wilson, was shot and killed from ambush near Tahlequah, about six years ago.

Wilson, whose home is in Winfield, has been much in the public eye since he was recently indicted on the charge of murdering his wife, Frank Anthony, who was shot and killed on the streets of Tahlequah, Okla., a year and a half ago. **Wilson's Death.**
 Charles West, first husband of Mrs. Wilson, was shot and killed from ambush near Tahlequah, about six years ago.

PRISONERS KILL NOTED SHERIFF.

Terror to "Bad Men" Murdered in Jail Delivery.

Poses Are Searching Hills for Desperate Men.

Threats of Lynching Made by Angered Citizens.

PRISONERS KILL NOTED SHERIFF.
 TAYLOR, July 25.—T. D. Taylor, famous cowboy sheriff of Umatilla county, was shot through the breast and fatally wounded here early this afternoon, when six prisoners confined in the County Jail made a sensational escape. He died five hours later. A big posse is now in pursuit of the fugitives, who are heavily armed.

Poses Are Searching Hills for Desperate Men.
 The prisoners first overpowered Jake Marin, a deputy, who had taken them their dinner. They then entered the office where Taylor was seated chatting with Guy M. Wyrick. A struggle followed, in which one of the convicts gained possession of a revolver and fired. Without attacking Wyrick they fled.

Threats of Lynching Made by Angered Citizens.
 Following the break the desperadoes seized guns and ammunition in the sheriff's office and fled to the O. W. R. & N. Company's railway tracks, where they boarded an east-bound freight train. **Poses Are Searching Hills for Desperate Men.**
 The fugitives rode this train for four miles, getting off at Mission station. From there they fled into the timber.

Poses Are Searching Hills for Desperate Men.
 As soon as the news of the jail break had been made known, every able-bodied man in Pendleton was pressed into service and a posse sent out. The entire population of Pendleton was aroused to intense excitement when word of the shooting of Taylor and the break spread. **Poses Are Searching Hills for Desperate Men.**
 Following the break the desperadoes seized guns and ammunition in the sheriff's office and fled to the O. W. R. & N. Company's railway tracks, where they boarded an east-bound freight train.

HEY! HOW ABOUT THAT
RENO DIVORCE OF YOURS?

Woman Who Would be Safe Gets Another One, Although One-time Husband is Married Again.

Good morning! Have you used mated pairs' hope?

In other words, have you a Nevada divorce? Or have you a real divorce?

The granting of a divorce in Los Angeles a few days ago to Mrs. Muriel Barnard Simons from Joseph T. Simons amazed many persons who knew that Mr. Simons was advised by a divorce from Mrs. Simons in Nevada a little more than a year ago and since then has married another woman and is living in Los Angeles with his second wife and their brand-new baby.

For a woman to sue for divorce from a man who already has been divorced is a thing of unusual occurrence, but it calls attention to the startling fact that probably there are thousands of persons in California who are treasuring their safety deposit boxes containing divorces which they got over in Nevada which aren't worth a hoot in California, the wise ones say.

And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces. And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces.

And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces. And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces.

And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces. And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces.

And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces. And then, as in the Pickford-Pairbanks case and San Diego, and all intermediate points, to get divorces.

FACTS, FIGURES SHOW "GAS"
SITUATION AT A GLANCE.

Increased usage of gasoline, not decreased production in the Southern California fields, for a drop of oil is produced in commercial quantities on the Pacific Coast north of a line drawn well south of the center of the state, nor increased exports, for exports are decreasing rather than increasing, is responsible for the present "gas" shortage in Los Angeles and on the Coast, is the gist of a statement issued yesterday by the board of directors of the Chamber of Commerce after an impartial investigation.

In its statement the chamber has viewed the situation broadly and some of the conclusions are as follows:

"The scarcity of fuel oil which has reached an acute stage in California is national.

"The annual supply of fuel oil in the last eight years has been reduced

"Since 1911, automobile production has increased 97 per cent, while oil production has increased only 71 per cent.

"Exports of gasoline apparently have not been unduly increased, but are sufficient only to provide foreign customers with their usual quantity.

"The producers themselves do not export, but sell to exporters. It is considered a proper business policy to take care of foreign customers acquired while building up the foreign trade of the United States. There are nine gallons used domestically to one exported."

However, as C. M. Hamilton, district sales manager of the Standard Oil Company, pointed out yesterday, this export "boon" is now on the wrong foot. To care for territory—Oregon, Washington, Nevada and Arizona—there has been increased use here, the Standard will this year bring

from 314 barrels for each combustion unit to fifty barrels per unit in 1919.

"In 1915, as the picture on the left shows, the 6116 producing wells of Southern California averaged 49.94 barrels a day. In 1920 the 9272 wells averaged but 29.64 barrels per day. The decrease in gasoline stocks is visualized by the comparative pictures on the right.

On Jan. 1, 1918, the companies had 71,626,163 gallons on hand at the refineries to supply trade; Jan. 1, 1919, they had 32,985,925, and on Jan. 1, 1920, but 15,588,865 gallons.

Comparative Increase in Autos and Tractors.

On Dec. 31, 1915, there were 236,891 autos of all kinds on the Pacific Coast; today there are 743,745. On Dec. 31, 1915, there were 3000 tractors; today there are 28,677.

In 60,000,000 gallons of oil from the Midcontinental fields and 30,000,000 gallons from Mexico. Other companies are also doing the same.

On the other hand, the Standard exports, mostly to Hawaii, the Philippines and to trade customers in Asia and Australia, have decreased from 705,741 barrels in 1915 to 213,351 barrels in 1920, and the Standard, it is authoritatively stated, exports 85 per cent of the oil that leaves this State for overseas.

As further showing increased "gas" use, the Chamber of Commerce statement says that "shortage of water in the mountains, diminishing the supply of electricity to take care of farmers, forced them to install gasoline motors, which made further demands on the gasoline supply."

The chamber also hits the plan for government and State control of "gas" by saying that "distribution has been made more effectively and economically through the existing agencies."

It also declares that the present shortage is a warning to California and the nation to develop hydroelectric possibilities to the fullest, pointing out that coal came in when wood, got scarce and oil when coal measures became pinched.

More succinctly put, the situation, which is also pictorially shown on this page, is as follows:

Crude oil supply: California, which means the nine southern companies, will this year produce about 100,000,000 barrels of crude oil, a slight increase over last year.

Crude oil consumption: The Pacific Coast will this year consume about 110,000,000 barrels of crude oil, the 10,000,000-barrel difference being drawn from reserve stocks, which have decreased in Southern California from 58,000,000 barrels in 1915 to 26,000,000 barrels on May 31, 1920.

Gasoline supply: Greatest in history of California oil industry and augmented by the importation of millions of gallons from eastern and Mexican fields.

Gasoline consumption: In 1915 there were 238,000 motor vehicles on the Pacific Coast. In 1920 there were 743,745; in 1915 there were 3000 tractors, in 1920 there were 28,677. There are many thousands of gas engines in operation. In 1918 the Standard Oil Company's sales of gasoline amounted to 152,000,000 gallons, in 1919, 152,000,000, while the sales of 1920 will be more than 200,000,000 gallons. So far this year, this company has sold 48.4 per cent more gasoline than for the same period of last year.

Exports: Steadily dropping; in fact the Pacific Coast is now importing oil to make up arrears.

Elaborate banquet preceded the ritual of the Hoos. The Hoos is a benevolent organization made up of prominent men in the lumber business and its allied industries.

Figueroa-Street Families in Distress Plea for Help.

Ten Youngsters May Have Eloped; Offer Rewards.

Missing Male Reported to Have One Black Eye.

"Where is my cat?" wailed H. T. Barnett, proprietor of a hotel at Sixth and Figueroa streets, yesterday.

"Where is my dog?" wailed Harry A. Miller, guest in a hotel at Seventh and Figueroa streets.

"Fifty dollars reward for the arrest and conviction of the person who aided and abetted my cat in its breaking of home ties!" exclaimed Mr. Barnett to the police.

"Ten dollars reward for the person who overtakes my dog and brings him back to his wayward path," exclaimed Mr. Miller to the police.

With these appeals ringing in their ears, police detectives yesterday drew into temporary seclusion to piece together clues and deductions which may lead to the apprehension of the missing "parties" in what is believed to be another half-trigger elopement.

Whether the cat eloped with the dog or the dog eloped with the cat is not yet known, but it is a matter of deduction that the pair was working on the case that Pussay was missing from his morning nap on the lawn at Sixth and Figueroa at about the same time that Mr. Miller missed the usual "nap" of Mr. Doggie's tail upon the family hearth at Seventh and Figueroa. Only one block intervened, and what is a block to trusted lovers.

Pussay, who is an unusual specimen of the Angora tribe, and is said to have royal blood flowing in her veins, was dressed in her usual ornate costume of dark gray when last seen. Mr. Doggie, who is also said to be of aristocratic parentage, and a son of the Bull family, disappeared in white with one black eye. No significance is attached to the black eye, however. Friends at both homes are grief-stricken, and the word has been fearfully passed out that all will be forgiven the two missing ones. The person who helped Pussay away, however, said that all will not be handed out any sympathy.

He was rushed immediately to the Receiving Hospital, where he was attended by Police Surgeon Renshaw, but he died an hour later. The body was sent to Pierce Brothers' morgue. No papers or marks of identification were found in his clothes. He was dressed in a dark brown suit, with brown shoes, and dark cap. The tailor's label on the inside coat pocket bore the name of Eisenberg's shop, Santa Barbara. He was about five feet eight inches tall and slenderly built. He had two gold teeth. A watch, No. 16,111,815, a metal belt buckle bearing the initial "B," and an opal ring were found on his person.

PERTINENT PULPIT PARAGRAPHS.

THEODORE KEMP.

METHODIST EPISCOPAL

and his mountain

has been big with de-

serts in Russia, India and her be-

loved Ireland. Such movement

of godly parents, have ever had her sup-

port and sacrificing labor. Her one

endeavor during this long period of

service has been to discover the

truth and hold it up to the world

as she has found it and this in the

case of suffering in tenement dis-

tricts as well as in expounding

moral and philosophical truths.

DR. JAMES A. FRANCIS.

FIRST BAPTIST CHURCH.

The Master opened the great ser-

mon on the Mount, with a picture

of the ideal citizen of the King-

dom. He who would know Christ's

notion of a true Christian should

read carefully the verses known as

the Beatitudes. Having sketched

the man or woman he next proceeds

to describe his or her influence. His

first word is a trumpet blast. "Ye

are the salt of the earth. How hold

the thought! What faith in His own

mission! What faith in His influence

on them! It is as if He said: "Such

will be my power in you that you

will be the very salt to preserve

human society from the corruption

and decay incident to sin." Then

comes the sudden warning. "What

if the salt becomes insipid? What

can make it salt again?" Then a

"Years ago in England, when or-

ganizing and defending working

men and women and children, she

was also pleading for the oppressed

classes in Russia, India and her be-

loved Ireland. Such movement

of godly parents, have ever had her sup-

port and sacrificing labor. Her one

endeavor during this long period of

service has been to discover the

truth and hold it up to the world

as she has found it and this in the

case of suffering in tenement dis-

tricts as well as in expounding

moral and philosophical truths.

DR. JAMES A. FRANCIS.

FIRST BAPTIST CHURCH.

The Master opened the great ser-

mon on the Mount, with a picture

of the ideal citizen of the King-

dom. He who would know Christ's

notion of a true Christian should

read carefully the verses known as

the Beatitudes. Having sketched

the man or woman he next proceeds

to describe his or her influence. His

first word is a trumpet blast. "Ye

are the salt of the earth. How hold

the thought! What faith in His own

mission! What faith in His influence

on them! It is as if He said: "Such

will be my power in you that you

will be the very salt to preserve

human society from the corruption

and decay incident to sin." Then

comes the sudden warning. "What

if the salt becomes insipid? What

can make it salt again?" Then a

Christianity does not close its eyes

to the hard facts of life. It does not

call everything which causes dis-

comfort unreal or nonexistent.

"But taking all the facts of life

into account, hard as well as favor-

able, it says that the universe is

good. Only if we live in a world

where righteousness dominates,

where love is the ultimate expres-

sion of life, where spiritual values

are primary and permanent, can

Jesus' message about God be true.

But faith de-

mands more than belief. Christi-

anity is not a philosophy; it is a

life. To live your life as you would

if you really believed in the God

whom Jesus revealed, is the great

adventure."

DR. FRENCH E. OLIVER.

CHURCH OF THE OPEN DOOR.

"The Bible is its own best inter-

preter. A picture is here presented

of a woman, clothed with the sun,

the moon under her feet, on her

head a crown of twelve stars. When-

ever a passage of scripture is to be

understood as a parable, it is states.

Whenever the events described are

to be understood as a sign, or won-

der, it is states.

"This figure of the woman is a

sign. Some have said that the Jew-

ish nation is intended to be repre-

sented; some think it is the church.

I believe the picture of the woman

is not a representation of the Jew-

sent; some think it is the church.

I believe the picture of the woman

is not a representation of the Jew-

ish people, nor of the church at

the present time, but that it com-

prises all of God's righteous people

from Genesis to the end of the

dispensation wherever and when-

ever it has been true that God's

righteous people have in anguish

and travail labored to bring forth

righteousness upon the earth. In the

Old Testament we read "When Zion

travails, she brings forth sons and

daughters; and from the martyrdom

of righteous Abel to the present

time, it is literally true that the

people of vision and faith have

mothered and given to the world

all of the greatest spiritual forces

and leadership that the world has

ever known."

PLATE GLASS HIS MARK.

Police Hunt Boy Cyclist Who Is Ac-

cused by Auto Sellers.

The police are searching for a 14-

year-old boy who, it is charged, has

a penchant for riding around on a

bicycle and throwing stones through

extensive plate glass windows.

H. G. Hooper and L. F. Lynn of

the Chevrolet Motor Sales Company

reported to the police yesterday that

this boy threw a stone through a

\$7200 plate glass window at the sales

rooms at Twelfth and Figueroa

streets and cast another rock

through the plate glass door of the

Earle C. Anthony Company's estab-

lishment at Tenth and Hope streets.

A WORD TO PARENTS—You Are Looking for the Best Influences Possible for Your Boy

The San Diego Army and Navy Academy

has constantly maintained the highest standards of scholarship, with military training and discipline, and the strongest emphasis upon Christian character training. It is becoming recognized as the "happy school," its teachers and students are loyal and enthusiastic in every phase of school life.

The Academy has enjoyed for years the highest recognition from the Colleges and from the War Department: it is the University of California's "Division A," the highest academic rating; the War Department rates it as Class "M," a real military school; its graduates, on appointment, are exempted from the regular entrance examinations at West Point.

The deep heart interest in a boy, the spirit of good fellowship, the great amount of individual care and attention given the student, the Academy's genuinely democratic atmosphere and absolute freedom from snobbishness—these are some of the features that are so strongly appealing to red-blooded young Americans and to discriminating parents.

For full information and beautifully illustrated Year Book, call during the office hours of Capt. Thos. A. Davis at Alexandria Hotel, or write direct to SAN DIEGO ARMY and NAVY ACADEMY, PACIFIC BEACH, CALIFORNIA.

NOTICE

Capt. Thos. A. Davis.

Pres. San Diego Army and Navy Academy will be at

Hotel Alexandria, Mesquite Floor,

10 a.m. to 2 p.m. Today,

Tomorrow, and Wednesday

July 26, 27, 28 and will be

pleased to give full information

regarding his school.

Sawyer School of Secretaries

MINING COMPANIES IN MERGER.

Six Concerns Involved in Consolidation With Goldfield Company.

(SPECIAL CORRESPONDENCE.)
GOLDFIELD (Nev.) July 25.—Stockholders of the Atlanta, Blue Bull, C.O.D., Goldfield Merger, Goldfield Combination and Milltown Mining Companies have ratified consolidation into the Goldfield Deep Mines Company. Books have been opened for exchange of stock. Atlanta and Blue Bull stock is exchangeable for Goldfield Deep Mines shares for share, but stock of the other companies must carry a bonus of one cent per share for an equal amount of Deep Mines stock. Goldfield Deep Mines starts with a treasury surplus of \$150,000, the powerful mine plants of the absorbed corporations and other resources. The acreage embraced in the merger is the largest in the Goldfield district and includes several claims formerly owned by the Goldfield Consolidated. Sinking of the 1000-foot vertical shaft on the Blue Bull section of the property has begun with a picked crew and General Manager A. L. D'Arcy plans to complete the shaft in record-breaking time. Preparations have been practically completed by the Goldfield Development Company to place the second twenty-stamp unit of the 100-stamp mill in commission. For a month the first unit has been in operation and is treating Development and Crackerjack ore at a good profit. In future a heavier tonnage will be milled for the Crackerjack Company and the output from the Combination and Red Top mines steadily increased. Large quantities of excellent ore will also be diverted to the mill from the Mohawk and the Development lease on the Florence. Development of rich ore is progressing in the Crackerjack and Development leases on the Florence, the Combination mine and a new lease on the Lone Star group. The latter discovery is considered particularly significant, as it promises to stimulate activity toward the northeast. A huge deposit of excellent mill ore is also being blocked out in the Mohawk by the Silver Pick lease. New work has begun in the Grandma, Great Bend, Jumbo Extension and other properties, with leases chiefly concerned. Goeh! Here's an Old-Style Pun! "Maud says Jack's proposal was positively rude." "Well, it would be ruder if she accepted it."—Boston Transcript.

FAIL TO FIND PROPER CAMP.

Lamanda Park Residents Say Tourists Take Liberties.

Fire and Police Chiefs Talk to Sunday-school Class.

Eastern Educator Spends Vacation in Pasadena.

(LOCAL CORRESPONDENCE.)
PASADENA, July 25.—Lack of signs directing them to the public camping space at Brookside Park has led motor travelers this way to select random groves as stopping places. Every night sees groves in the Lamanda Park district peopled with automobiles, trying their evening "grub" over little campfires. Because of the lack of facilities in these groves and the danger from fire, the Lamanda Park people are advising the Pasadena authorities that they post signs in the locality, advising the tourists to keep going until they reach Brookside, where free camping space and facilities await them. Chief of Police W. S. McIntyre and Fire Chief E. F. Coop appeared in new roles this morning. Both of them were speakers before the Men's Bible class at Pasadena Presbyterian Church. They told the churchmen some of the problems confronting their departments. The bible class is informing itself on various phases of the city's life these summer Sunday mornings. Last week the speaker was Prof. W. H. Holland of the child welfare department of the schools. Dr. Thomas A. Clark, dean of men at the University of Illinois, is in Pasadena, taking a needed rest. He and Mrs. Clark are at the Vista del Arroyo for a stay. Dr. Clark hears all the students' troubles and problems during the college year. He says Pasadena is a fine place for an overworked college professor to come for a summer rest. The Pasadena Elks will give an entertainment at their clubhouse tomorrow night for the benefit of the Pasadena charity. The event is one of a number the Elks have given during the year for charitable purposes.

JAMAICA NEGROES ESCAPE FROM SHIP.

(LOCAL CORRESPONDENCE.)
LOS ANGELES HARBOR, July 25.—Five Jamaica negroes, who were found on board the steamer Charles (formerly the Harvard), after leaving Balboa, on the way out from Philadelphia, and who were transferred to the Yale, under guard of deputies in the employ of the Los Angeles Pacific Steamship Company, escaped some time yesterday, and are now at large. The United States immigration authorities had ruled that the company must return the stowaways to the place where they got on board the vessel, and hold the steamship company responsible for the performance of that sentence. What the penalty will be if the men are not found, will have to be determined later by the United States court, with the possibility of forfeiture of the bonds given for their safe keeping. It had been the intention to return the negroes to Balboa by the first Pacific Mail steamer, which would have been the City of Para, due to sail from here on August 1. Descriptions of the men have been furnished to the police authorities, for the purpose of having them apprehended if possible. They are all short in stature, ranging from five feet, six inches to five feet, eight inches in height, and are said to speak with an English accent.

GIVES OFFICERS A LIVELY CHASE.

ARREST VETERAN ON CHARGE OF LARCENY; SPEEDING AUTO CAUSES WRECK.

(EXCLUSIVE DISPATCH.)
POMONA, July 25.—Pursued for ten miles down the Pomona Boulevard, Walter William Scott, 20 years of age, discharged Canadian soldier, wounded seven times and badly gassed, was finally overtaken by Motorcycle Officer Jack Hooper today and after a lengthy argument, in which the officer was forced to draw his gun, submitted to arrest on a charge of bicycle stealing in San Bernardino. The man was apprehended through the suspicions of Charles Johnstone, local bicycle dealer, to whom Scott said to have attempted to sell the wheel. Johnstone refused to buy the bicycle and immediately called an officer and followed his suspect as far as Spadra. Officer Hooper came in pursuit of the speeding bicyclist near Walnut street and he had been towed for several miles by a truck, but had abandoned that method of locomotion because he could make better time pedaling his own mount. He is being held in the Pomona City Jail, awaiting the San Bernardino officers, who declare that he is wanted there for the theft.

Scott solemnly denies any guilt of the alleged charge. Fred E. Boileau, member of the Pomona Board of Education, today resigned his seat. He stated that he had sold his home in the ward he represented on the board and had purchased an orange grove in another section of the city, thus automatically invalidating his seat as director on the board.

SPEEDER CAUSES WRECK.
Crowded on the road by an unidentified driver in a Buick car, which sped on without even slackening its fast pace, two machines were wrecked in the ditch on the Valley Boulevard, just east of Pomona, today and the occupants painfully but not seriously hurt. The wrecker was driven by Bert Gribble of 2618 San Pedro street, Los Angeles, and S. D. Carpenter of 1214 Santa street, Los Angeles. With Carpenter was D. E. Eisenberg, a police officer of Riverside. Carpenter and Eisenberg escaped with only a few slight cuts and little damage to the car, but Gribble was hurled into a barbed-wire fence at the side of the road as his car turned turtle and was totally wrecked. Gribble received several deep cuts and bruises about the face and body. Officers in both Los Angeles and San Bernardino counties have been notified to trace the lawbreaker who caused the triple crash.

STILL EXPERIMENTAL.

Use of Hydroplanes to Locate Fish Not Proven Success.

(LOCAL CORRESPONDENCE.)
LOS ANGELES HARBOR, July 25.—Local canners who have been experimenting with hydroplanes for spotting schools of tuna for the benefit of fishermen in their employ, held a meeting yesterday afternoon and decided to continue the experiment for three days longer. On Saturday the observers located a school off the southern side of Santa Catalina Island, but the fishermen were some miles to the northwest. The hydroplane dropped messages to the fishermen, one of whom repaired to the scene of the school and was rewarded with a catch of fifteen tons. Other boats caught smaller amounts. Previous to this time the hydroplanes have been using carrier pigeons, the code being located near Portuguese Bend. While the canners recognize the possibilities of the hydroplanes for locating purposes, the project is as yet in the experimental stage.

ENLARGE HOSPITAL.

Gift to City of Whittier to be Elaborate One.

(LOCAL CORRESPONDENCE.)
WHITTIER, July 25.—That the Murphy Memorial Hospital, now in course of construction here, will be enlarged from the original plans for a thirty-bed hospital to a forty-five-bed hospital, is the announcement just made by the donor, Col. Simon J. Murphy, Jr., of Pasadena. The change will be accomplished by raising the wings of the building another story. The hospital building is being erected by Col. Murphy on a site owned by the city in Alta Park, a beautiful thirteen-acre tract at the east side of the city. On its completion the building will be donated to the municipality of Whittier by Col. Murphy, as a memorial to his father, the late Simon J. Murphy, Sr., to his mother and a brother. Simon J. Murphy, Sr., was a pioneer developer of water, oil, citrus fruits, and walnuts here. The original hospital plans called for a \$50,000 building but the cost of the advancing cost of construction doubled the original cost. The changes to be made accordingly have the latest announcement, will still further increase the cost figures, which, it is rumored, will approximate \$150,000.

TOO MANY WIVES.

Three Women Prove Man's Guilt at Ventura.

(LOCAL CORRESPONDENCE.)
VENTURA, July 25.—Jack Wayne's three wives were on hand in Judge Knox's court yesterday to confront him in his trial for bigamy. He was found guilty and will be sentenced next Wednesday to from one to ten years for the offense.

Wayne showed a marked preference for his latest wife, a young Spanish girl from Santa Barbara, whom he allowed to pat his sleek blonde head during the trial. The other two wives, one from San Francisco and the mother of one of his children, and the other from Sacramento, who had ordered him to divorce her, were completely indifferent by all appearances to his presence.

Wayne's real name is Arnold De Caccia. Mrs. Myra Moras De Caccia testified that she was married in Oakland in 1912 by Judge Sam-

CATHOLIC PILGRIMS WORSHIP AT SHRINE.

(LOCAL CORRESPONDENCE.)
SANTA MONICA, July 25.—More than 1500 people thronged the gates of St. Ann's shrine today at Twentieth and Colorado streets. This afternoon marked the climax of the nine-day service that Catholics of Santa Monica have been holding in veneration of St. Ann.

At 3:45 in the afternoon a procession made up of people carried here from all over Southern California, paraded around the shrine and worshipped the relic of the beloved saint. Father Cullen of San Francisco, who has been leading the services, officiated at all the services today. The hymn to St. Ann was sung at the close of the services by the congregation.

STAR EXPOSE STAGE TRICKS.

Tells How Jealousy Killed the Big Scene.

Lifes' Jail to Show Mel Rousing Audience.

Musical and Paint Aid to Stimulate Emotion.

The following article was by Miss Jane Cowell, star of "Lifes," which opens at the "Lifes":

It is a big scene on the big scene of the play. The acting attorney and the lawyer on trial focus the attention of the audience.

For the moment the past must have lost sight of all that has gone before. The audience waits for the denouement. Then its gaze is suddenly by the light reflected from the face of the actor, who is the central group. The effect is a long, slow, steady gaze, a mere perfunctory glance.

To those in the audience the scene of the play seemed, not a casual bit of by-play, but a thing to be studied, to be thought of, to be remembered. It was a thing to be thought of, to be remembered. It was a thing to be thought of, to be remembered.

And the answer comes: "Home."

This one word, "Home," is hurled at the browbeaten jury, unexpectedly establishing a connection of the wit and the wit of the attorney. The answer brings an answer from the audience. The actor playing the attorney like that round to the scene of his own life. The actor playing the attorney like that round to the scene of his own life.

Where (pause) were (pause) (pause) the (pause) night (pause) (pause) May (pause) (pause) it can readily be seen person on the stage would answer at all for deliver answer. The reply was slow in accordance with the situation. The speaker does not realize the situation is gone; the situation is gone; the situation is gone.

Timed in the theater it is a thing of the moment. It must be timed up, line by line, situation by situation, to put those out in the mood where the scene will come easily. It is not a matter of chance.

VALUE OF "PLANT." Again the methods of police officers are shown as the "third man" where things are "planted" in to produce a certain emotional effect. This is the part of the permanent investigation to the stage. "Plants" designed to produce a certain moment. On the other hand, what is going to happen to the point to produce an effect. It is often for the incident to make the incident seem natural and life-like when the time comes. An excellent illustration of this was provided in the play "Within the Law." The girl, Mary Turner, convicted of which she was innocent, brought into association with the play. The play involves a Maxim silencer used in an earlier scene. The silencer and explains the use of his revolver he will be no noise from the shot. He is able to prove his assertion, he points to the silencer in the revolver. The silencer is a thing of the moment. It must be timed up, line by line, situation by situation, to put those out in the mood where the scene will come easily. It is not a matter of chance.

Bullock's
Los Angeles

BULLOCK'S WILL BE OPEN UNTIL ONE O'CLOCK SATURDAY.
Bullock's closes Saturday at one o'clock every Saturday throughout the year.

Bullock's
Los Angeles

The Last Great Week Is On!

Bullock's July Furniture

is facing straight toward a swiftly approaching close with enthusiasm running high.

—Let this word today be impressive with inspiration to make Bullock's July Furniture your rendezvous of Furniture provision during the days remaining.

—The opportunity is wide and inviting—VALUES are here which, judged in the light of existing conditions—have seldom been equalled.

—Up! up! up!—the trend of QUALITY. Down—to levels in the realm of phenomena—the disposition of prices.

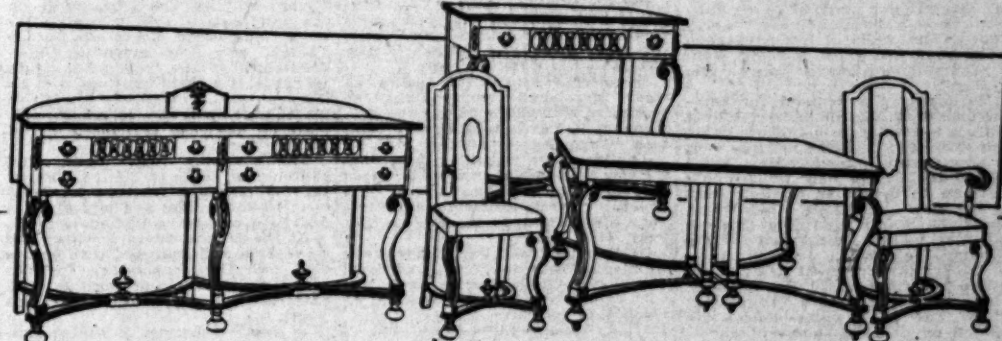

—This is the keynote of Bullock's July Furniture—the thought upon which it is built—the reason why you should look toward it as a source of saving upon many of your Furniture requirements.

—But remember—this is the last week and the hours are flying—the word is SHARE—to the fullest extent—one more week—at Bullock's—Seventh Floor.
